Hatter M: The Looking Glass Wars #3 (of 4)

Image Comics

(w) Frank Beddor & Liz Cavalier

(a) Ben Templesmith

FC, 40 pgs w/ ads \$4.50 CAN / \$3.99 US

This was my first issue of *Hatter M* and to me it seems as if the story is just getting going. I've missed two issues, but I was still able to follow what was going on, mainly because this issue contained a flashback in which I learned all I needed to know about Hatter M's quest to find the stolen princess Alyss.

Imagine my dismay and surprise when I learned this is the third of only four issues. I can't imagine what I read being near the end of the tale. I am curious now to find the first two issues to see what occurred and so that I understand the full story before reading the finale.

I'd gotten bored with Templesmith's art, but it is very well suited to the insane and fantastical world of *The Looking Glass Wars*. (*Chad Boudreau*)
